

# Introducing the new 5-1/8" 15-K Quick Connect Hand Union

- Save time and money with reduced rig-up time
- No 3rd party torque services required
- Full 5.125" internal diameter
- Easy replaceable O-Ring seals
- Safe efficient connection with no danger of pinch points like conventional bolt/torque method
- Integral design, manufactured from 1 piece of material offering security, serviceability, and rigidity
- Can be used for standard and H2S sour environments
- 15,000 psi working pressure
- Can be manufactured in any length requested
- Available for rental or purchase
